PROJECTS

WEBSITE DESIGN USING WORDPRESS

May - 2023

- Designed and implemented a visually appealing website using WordPress, featuring a catalog and advertising portfolio.
- This project demonstrated my creativity and ability to utilize diverse web development tools.

GREEN SYNTHESIS WEBSITE DESIGN

Nov - 2023

- Developed a comprehensive website focused on green synthesis, showcasing my proficiency in HTML, CSS, and Bootstrap.
- The project aimed to highlight environmentally friendly practices in chemistry.

EXPERIENCE SUMMARY

Fresher

- As a first-year student, I am enthusiastic about building a strong foundation in computer science and contributing to innovative projects.
- I am open to learning new technologies and leveraging my existing skills to tackle challenges in a collaborative environment.
